

ENTERPRISE · THE ULTIMATE LICENSE

One License. Twelve Apps. Shared Memory.

Replace 6+ disconnected enterprise tools with DCNetwork Ultimate at \$1,500 per seat.

For: Enterprise buyers — CFO / CIO / procurement · July 2026 · EU-sovereign, member-owned infrastructure

You're paying Salesforce for CRM, SAP for ERP, Confluence and Jira for docs and tasks, ChatGPT Enterprise for AI, Zapier to duct-tape them together, plus separate research, creative, and legal tools. Six contracts. Six support desks. Zero shared memory.

\$1,500

The stack tax is real

A 20-person organization on list-price enterprise tiers:

Vendor	Annual
Salesforce (CRM)	\$180,000
SAP (ERP)	\$120,000
Confluence + Jira	\$48,000
ChatGPT Enterprise	\$120,000
Zapier + integration upkeep	\$36,000
Separate research / creative / legal tools	\$90,000
Total	\$594,000 / year

List-price assumptions for a 20-person org; actual spend varies with discounts, seat counts, add-ons, and usage.

What Ultimate replaces — and adds

All 12 vertical apps — Astro, News Desk, Concierge, Research, Automation, Creator, CRM/ERP, Engineering, Trading, Markets Pro, Cinema, and Legal — on one platform with one unified memory graph. Your legal briefs reference your CRM data; your research queries your engineering docs; your automation triggers your creative pipeline.

Pricing

Item	Price
Ultimate seat	\$1,500 / seat / month
Included COMPUTE allocation	\$450 / seat / month
20-person team, flat	\$360,000 / year — \$234,000 less than the fragmented stack

Add-ons

Add-on	Price
Dedicated VPC (single-tenant DB layers)	\$36,000 / year
On-premise deployment bundle	\$96,000 / year
White-label reseller program	\$144,000 / year + 10% rev-share

Sovereign, compliant, and yours

Ultimate runs on DCNetwork's own member-owned, EU-sovereign datacenters — NIS 2- and EU AI Act-compliant, GDPR-native, post-quantum-ready, with on-premise or air-gapped deployment. One vendor owns the whole stack, from the metal to the agents.
